

## Today Last Date to Get HC Permit

A final reminder that all students planning to attend Harbor College in the spring semester must obtain a registration permit not later than today was given by William McMaisters, assistant dean of admissions and guidance.

The permit, which can be applied for at the Admissions Office, Room 151, on the Wilmington campus gives the student a date and time for registration. New day students will be registering Saturday, and Friday, Jan. 26. New evening students will register Jan. 23, 24, 25 and 26. All registration is by appointment only.

"We have extended the registration period over several days and made it by appointment," said McMaisters, "for two purposes: to do away with the long waits and confusion usually associated with registration days, and to give everyone the benefit of advice from a counselor."

## Toastmaster Tells Club's Real Purpose

A Toastmasters Club is a speaker's workshop in which veterans and beginners alike contribute their efforts to improve the speaking habits and abilities of the individual members.

So said Donald Edwards of Redondo Beach at a recent meeting of South Bay Toastmasters Club 280, held at the Redondo Beach Elks Club.

Edwards, speaking on "The Toastmaster System and How It Works," opened the speech improvement course presented by the club for the benefit of men interested in speech improvement.

THE FORMAL speech session was highlighted by a lively debate on the provocative subject of "Resolved That the United States Should Resign from the United Nations."

The affirmative team of James McDonald, Manhattan Beach, and George Hasencamp, Palos Verdes Estates, defeated the negative opposition comprised of Fred Strible and Stanley Levenson of Manhattan Beach.

Strible won best speaker of the evening award. Men interested in speech training are invited to attend the special course on speech training that is conducted each Wednesday at 6:45 at the Redondo Beach Elks Club. Call James McDonald, FR 2-9347 for further information.

## Stolen Cars Reported in Daily Bulletin

Electronics and the California Highway Patrol have combined to make a new service available to all California law enforcement agencies.

It is the publication of a daily bulletin listing stolen and recovered vehicles in license number order. Patrol Commissioner Bradford M. Crittenden said.

"The bulletin will be distributed seven days a week. Each day's listing will contain every vehicle stolen or recovered in California during the previous 24 hours, plus a list of stolen and recovered license plates."

"THIS SERVICE should prove beneficial to the public because of the potential for quicker recoveries, reduction of stripping through faster identification of abandoned vehicles, and an overall reduction of vehicle thefts."

"The listing is in license number order for easy reference. It should increase the capability of every enforcement agency to provide speedier, more accurate checks on vehicles believed to be stolen."

"As the agency charged with maintaining statewide auto theft records, we also have the responsibility to make this information available as rapidly as possible to other agencies," the commissioner said.

"ELECTRONIC equipment has proved of much value, since it is now possible to accumulate data from a wide range of agencies, assemble it, and redistribute it in logical sequence—all within a few hours."
